**FREERIDE**
Freeride trails are machine-cut and contain man-made features. Routes are enhanced with dirt jumps, ride-on features, gaps, narrow surfaces, wallrides, berms and other natural or constructed features. All freeride trails are identified with an orange oval. Jumping skills may be required.

**TECHNICAL**
Technical trails are designed to embrace the rugged shape and terrain of the mountain. Routes are typically hand-built and feature organic obstacles and stunts such as rocks, roots, logs, drops, jumps and other natural or constructed features that require technical riding skills. Technical trails are identified by just their difficulty symbol. Jumping skills may be required.
